STEP 2 SKILLS Multiply

My child is a secondary school and they are agoraphobic. They said one how to use excel and I have no idea. Can you help me with the basics?

To go back to work after redundancy I need a maths qualification. I need some different courses. The idea of it is a bit scary. Can you help build my confidence to get me ready?

My son asks for help with percentages, but he is a bit shy and even then, it is difficult. Can you help?

My daughter wants to cook at home, but I don't know where to start with measuring. Or you from cooking classes?

Why does some of my money go to the post office? I don't get what I need. How do they work? What if you have someone who can explain it to me?

Every one asks: how can I get better? How can I get better? How can I get better? How can I get better?

YES! The Multiply Project, delivered by Step2Skills, can help.

A range of one-to-one workshops available across the county are:

- Making sense of numbers
- Shopping on a budget
- Developing numeracy skills for healthcare
- Introduction to Excel

We also donate items to community groups and charities.
